

DIAGRAM OF THE CAUSES OF MORTALITY IN THE ARMY IN THE EAST .

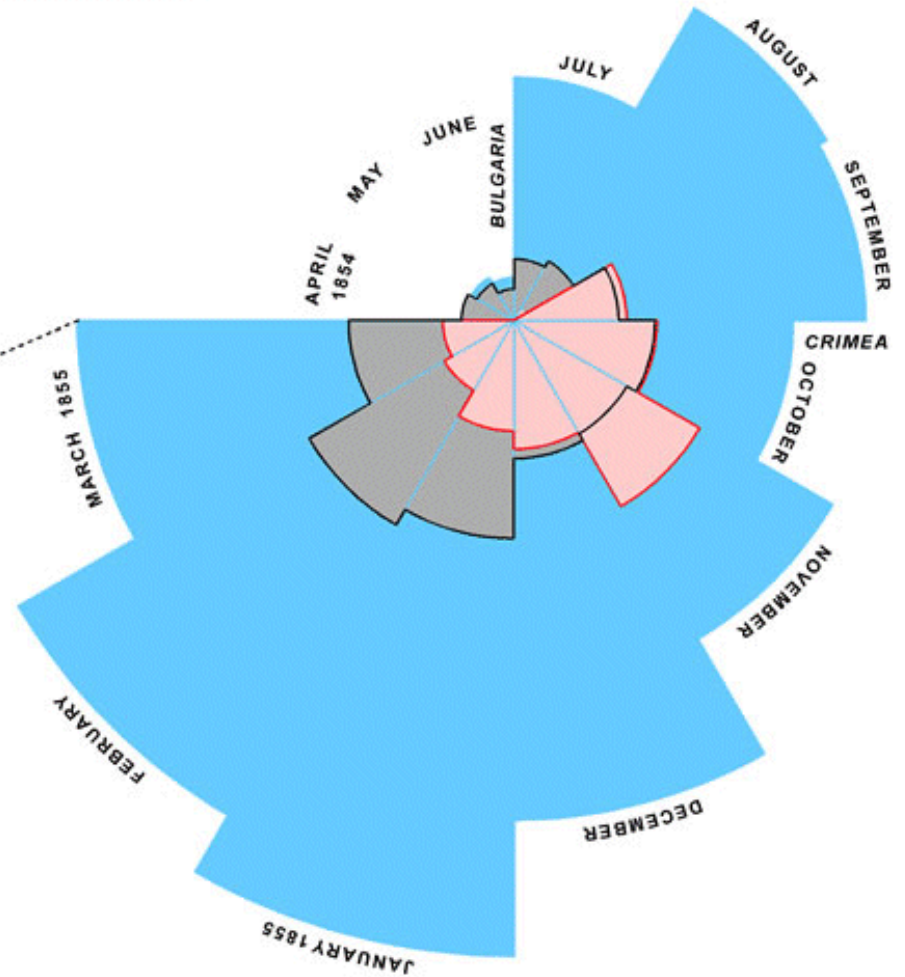

2.

APRIL 1855 TO MARCH 1856 .

1.

APRIL 1854 TO MARCH 1855 .

The Areas of the blue, red, & black wedges are each measured from the centre as the common vertex
The blue wedges measured from the centre of the circle represent area for area the deaths from Preventible or Mitigable Zymotic Diseases, the red wedges measured from the centre the deaths from wounds, & the black wedges measured from the centre the deaths from all other causes
The black lines across the red triangles in Sept' & Nov' 1854 mark the boundaries of the deaths from all other causes during those months
In October 1854, April 1855, & November 1855, the black area coincides with the red, in January & February 1856, the blue coincides with the black
The entire areas may be compared by following the blue, the red & the black lines enclosing them
